SECTION A: OVERVIEW AND INTRODUCTION

1 Introduction

GSTC Integrity Program

The GSTC Integrity Program is designed to be applicable to all schemes certifying tourism enterprises for their sustainability management and performance. Relevant certification schemes and the bodies that run them vary from sizeable international operations or national schemes, some with support from government agencies, to small schemes covering local areas or particular types of tourism product.

The GSTC intends to build a long-term relationship with all certification schemes. An aim of the GSTC is to continually increase the percentage of schemes that are GSTC-Approved and/or GSTC-Accredited.

The GSTC considers it desirable for all sustainable certification standards to be GSTC-Recognized to ensure that an overall global baseline is set for sustainable tourism standards.

It is recognized that many standards do not currently cover all the elements of the GSTC Criteria or certifiers comply with all of the GSTC requirements for certification bodies. It may take some time for these bodies to complete the changes required to achieve compliance.

The GSTC acknowledges these challenges, and has a number of options for standard owners and CBs to gain GSTC endorsement.

- **GSTC-Recognized**: GSTC recognizes equivalence of a certification body’s standard (criteria) against GSTC Criteria (Hotels, Tour Operators or Destinations). See the GSTC-Recognized Manual.
- **GSTC-Approved**: GSTC approves the policies and procedures of a certification body that uses a GSTC-Recognized standard. This document, the GSTC-Approved Manual, applies.
- **GSTC-Accredited**: Third party accreditation (by ASI) of certification body that either uses a GSTC-Recognized Standard OR certifies directly against GSTC Criteria and Indicators (GSTC-Industry, formerly Hotels, Tour Operators, and/or Destinations). See the GSTC-Accredited Manual.

Not all certification schemes cover all aspects of sustainability: economic, social, cultural and environmental. For example, a number are solely covering environmental matters and may grant the use of an eco-label. These schemes would only be eligible to become GSTC-Recognized if they first transformed themselves into sustainable tourism certification programs and included all aspects of sustainability. The GSTC encourages certification schemes, where appropriate, to consider this transition.

The diagram below provides a simplified graphical depiction of the pathways of the GSTC Integrity Program and the table on the following pages summarizes the processes, key aspects and benefits.

The Need for Sustainability of Tourism

Travel and tourism account for around 10% of the world’s economic activity. It is a rapidly growing sector, with international tourist arrivals forecast to grow from 1.1 billion in 2014 to around 1.8 billion in 2030\(^4\).

The Sustainable Development Goals adopted by the UN General Assembly in 2015 are aimed at, inter alia, ending extreme poverty, fighting inequality and justice and tackling climate change. The significant relevance of tourism to most of the 17 SDGs has been recognized. The UNWTO is working with governments, public and private partners, development banks, international and regional financial institutions, UN agencies and international organizations to achieve the SDGs, with a special focus on Goal 8 (economic growth), Goal 12 (sustainable consumption and production patterns) and Goal 14 (marine resources) where tourism has been specifically featured.

The impact of travel and tourism on global and local environments and on host communities can be both positive and negative, providing both opportunities and responsibilities.

Negative impacts and concerns associated with travel and tourism include:

- Its contribution to climate change, being responsible for an estimated 5% of global CO\(_2\) emissions which is growing rapidly;
- Depletion of natural and precious resources, such as the use of land and water;
- Creation of pollution of all kinds;
- Social changes and dislocation of traditional societies;
- Pressure on cultural heritage sites, natural environments and biodiversity;
- Poor labour conditions and exploitation in parts of the sector.

Travel and tourism can also deliver many positive benefits, including:

- A growing opportunity for enterprise development and employment creation, with low barriers for entry;
- Direct and indirect support for local communities, through the provision of jobs, income, services and infrastructure;
- Awareness of natural and cultural heritage and support for their conservation;
- Health, wellbeing and educational benefits for tourists and hosts, which should be accessible to all.

Sustainable tourism requires an approach to tourism development and management that recognises and responds to these responsibilities and opportunities.

Actions that encourage, identify and promote a positive response from enterprises are crucial for the future of the tourism sector and the contribution it can make to sustainable development. The tourism sector is highly fragmented. While there are some important multinational players, many of the providers of tourism services are independent businesses and the majority are small and micro enterprises. Tourism enterprises of all sizes are responding in different ways and to different degrees to the need for sustainable tourism.

\(^4\) UN World Tourism Organisation, Tourism Highlights 2015 Edition
The Global Sustainable Tourism Council (GSTC)

GSTC is a multi-stakeholder initiative formed in 2010 under the umbrella of the United Nations, including amongst its founding partners UNEP, UNWTO, UN Foundation, Sabre Holdings and Rainforest Alliance, amongst others. It was formed in response to the challenges and opportunities of sustainable tourism, by merging two previous initiatives. In 2015, GSTC merged with the Tour Operators’ Initiative, with TOI’s operations now coming within the GSTC organization.

Over 150 organisations from the public, private and voluntary sectors and from the world of tourism, environmental management and sustainable development have been contributing to the work of the GSTC and its two predecessor bodies.

The GSTC is a Membership Council with a Board of Directors. The Board provides the governance of the organization. However, the Council, which elects the Board, has responsibility for the by-laws of the GSTC, for its principles, criteria and operational guidelines, for admittance of members and for resolving disputes.

The mission of the GSTC is:

“To improve tourism’s potential to be a driver of positive conservation and economic development for communities and businesses around the world and a tool for poverty alleviation”.

The GSTC fulfils its mission by fostering increased knowledge and understanding of sustainable tourism practices and the adoption of universal sustainable tourism principles.

It also works in many other ways to strengthen education, communication, knowledge-sharing and business engagement in the field of sustainable tourism and to achieve improved market access for sustainable tourism products.

A Common Agenda for Sustainable Tourism

The challenges of sustainable tourism articulated earlier encompass economic, social and environmental impacts. This broad spectrum of concern is increasingly recognized by bodies promoting sustainable tourism. UNEP and UNWTO identified an agenda for sustainable tourism based on twelve functional aims and showed how there are economic, social and environmental dimensions to each of them. The dimensions are seen as interrelated.

In the private sector, in tourism as well as in other economic spheres, enterprises and investment projects are encouraged to consider a triple bottom line. Many companies report on corporate social responsibility policies and actions, which address a broad range of economic, social and environmental impacts and initiatives beyond straight financial reporting. Some companies use the guidelines of the Global Reporting Initiative, the world’s most widely used sustainability reporting framework (www.globalreporting.org).

The GSTC program is in line with this broad approach to sustainable tourism and encourages certification schemes to move beyond a more mono-dimensional, often environmental focus.

The principles for sustainable tourism behind the GSTC program are that:

- Sustainability objectives should be defined and actions coordinated by an effective management system

---

5 The Partnership for Global Sustainable Tourism Criteria and the Sustainable Tourism Stewardship Council
• Tourism should bring the greatest possible social and economic benefits to local communities and any negative impacts on them should be minimised
• Local cultural heritage must be respected and opportunities should be taken to strengthen its integrity and richness.
• Impacts on the global and local environment, through pollution and depletion of natural resources, should be minimised and support should be given to the conservation of local landscapes and biodiversity.

These principles of sustainable tourism are seen as relevant in all parts of the world and can be reflected in many different kinds of tourism enterprise. The overall agenda remains the same. However, key concerns about tourism impact and priorities for improving sustainability will vary from place to place. It is hoped and expected that sustainable tourism standards will be adapted to local and industry sector conditions and that they will far exceed the minimum requirements set out in the GSTC Criteria.

**GSTC Criteria**

The Global Sustainable Tourism Council has developed two sets of criteria and indicators:

- GSTC-HTO: The Global Sustainable Tourism Criteria for Hotels and Tour Operators;
- GSTC-Destinations: The Global Sustainable Tourism Criteria for Destinations

As at mid 2016, the GSTC is planning to develop two new sets of criteria:

- GSTC-Industry: as a revision of GSTC-HTO and a scope expansion to address all tourism enterprise.
- GSTC-Country: a new set of criteria to address the framework for achieving sustainable tourism at the national level.

The development of GSTC-Industry will allow the GSTC to develop sector specific indicators for this broader set of criteria, for example the MICE sector.
GSTC Accreditation Panel

The GSTC Accreditation Panel is established by the GSTC by-laws:

The GSTC Accreditation Panel (“the Panel”) will operate the recognition, approval and accreditation program under the umbrella of GSTC. The Panel will:

1. Establish the requirements for recognizing standards, approving certification programs, and validating the accreditation of conformity assessment bodies, through Manuals for Recognition, Approval, and Accreditation; guidance documents, and other documentation of procedures;

2. Determine whether a contractor is qualified to review a standard’s conformity with the GSTC Criteria; review certification program procedures and processes; or award accreditation;

3. Declare standards to be “GSTC-Recognized”;

4. Declare certification programs to be “GSTC-Approved”;

5. Validate and provide surveillance of accreditation body declarations of “GSTC-Accredited certification bodies”;

The Panel shall operate independently of the GSTC Board and executive staff. While appointed by the GSTC Board, the members of The Panel shall disregard any instructions from the Board or executive staff that they feel may jeopardize their independence and impartiality.

The GSTC Board shall have the discretion to accept or reject any of the Panel’s recommendations or decisions. If GSTC rejects one of the Panel’s recommendations or decisions, it is obligated to provide an explanation for doing so to the Panel. The Panel may choose to raise the matter at the next annual Membership Council Meeting.
Principles for the implementation of the GSTC Integrity Program

The following principles apply to all aspects of the GSTC program – including to work performed by certification scheme owners, CBs and Accreditation Bodies.

1 Integrity
Integrity should be demonstrated in every aspect of the process, requiring honesty, fairness and consistency throughout.

2 Credibility
The process should spread confidence in certification as a meaningful way of identifying and stimulating good sustainability practice in the tourism sector.

3 Impartiality
The process should not be open to any forms of influence which might raise doubts about the objectivity of the decisions taken.

4 Accessibility
Recognition of standards and accreditation should be as accessible as possible to all relevant certification schemes and certification should be as accessible as possible to all tourism enterprises. There should be no discrimination on grounds of size and location and financial barriers should be minimized.

5 Comprehensiveness
All recognized sustainable tourism standards covering sustainable tourism should address all aspects of sustainability, including socio-economic, cultural and environmental impacts.

6 Rigorosity
Accreditation and certification should be robust processes and require high standards and levels of sustainability to be met.

7 Effectiveness
The process should be impacts-driven and shaped to help as many tourism enterprises as possible achieve maximum change towards sustainability. The accreditation programme should strengthen the impact of the certification schemes.

8 Transparency
The standards required and processes adopted should be transparent and available for scrutiny by stakeholders.

9 Diversity
The process should recognize and encourage the diversity of local, regional and sectoral certification schemes, including their criteria and standards, provided there is no loss of sustainability outcomes.

10 Achievability
The accreditation process must be practicable and sustainable over time and not place burdens on certification schemes that they could not meet.
Overview of GSTC-Approved process for Certification Programs

This document sets out requirements for the operation of the Global Sustainable Tourism Council’s (GSTC’s) program for conferring GSTC-Approved status on the activities of bodies certifying conformity to GSTC-Recognized sustainable tourism standards, which are hereafter referred to as “certification programs”.

“GSTC-Approved” signifies that a certification program is using a GSTC-Recognized Standard where all GSTC-equivalent criteria are mandatory and is following processes and procedures that have been reviewed and approved by the GSTC.

In broad terms it means that the GSTC has recognized that the standard used for certification is equivalent to the Global Sustainable Tourism Criteria (GSTC-Recognized), that all equivalent criteria are mandatory and that the certification procedures largely meet international standards for transparency, impartiality, and competence. The processes involved with GSTC-Approved are faster, simpler, and less expensive than those involved with GSTC-Accredited, because not all requirements for full accreditation will be required. GSTC-Approved certification programs are encouraged to consider moving towards GSTC-Accredited. GSTC holds open the option to require such a transition at some point in the future. Businesses and activities certified by a GSTC-Approved certification program or GSTC-Accredited certification body (“clients” or “certificate holders”) can also be licensed to use the GSTC-Approved language and logos.

In order to ensure the credibility of a certification program in the absence of full accreditation, the body responsible for the program is expected to comply with the following, among other, requirements:

1. That it is a legal entity with rights over the use of the certification standard and associated trademarks and labels, as well as for making final decisions on the granting, maintaining, extending, suspending or withdrawing of certification.
2. It assesses the conformity of a client’s tourism services with a GSTC-Recognized Standard of clearly-defined scope and where all GSTC-equivalent criteria are mandatory.
3. Its policies and procedures are non-discriminatory and available to all applicants whose activities fall within its declared field of operation.
4. It has documented measures to reduce risks to impartiality and potential conflicts of interest, including those arising from consultancy to existing or potential clients.
5. It has the financial resources required for the operation of a certification system.
6. It ensures the competency of its personnel, internal and external, to perform the functions ascribed to them.
7. It has documented processes and procedures for the granting, renewal, monitoring, and termination of certification.
8. It conducts site audits of all certified services prior to granting certification.
9. It has procedures to handle complaints and appeals.

The process of assessing a certification program for GSTC-Approved consists of a remote desk audit of documents provided by the program, to be supported by an audit of a certification audit, hereafter referred to as a witnessed audit, if required by the Accreditation Panel. In the case that a witnessed audit is required by the Panel, the applicant will be required to pay the travel costs and professional fees of the GSTC-designated auditor.

7 “Certification program” is defined here as a “certification scheme” that requires conformity with a GSTC-Recognized Standard to award certification and that conducts certification to its own standard. For the purposes of GSTC, a certification body may evaluate conformity to its own standard or to any other GSTC-Recognized standard. A certification body does not need to own a standard.

   9.2.5 Plan the evaluation process.

9.3 The CP, or sub-contracted body, shall select personnel to carry out the evaluation.

9.5 Audit personnel shall conduct a visit to the premises of the client.
  9.5.1 The visit shall involve:
    a) Interviews with key personnel
    b) Obtaining objective evidence that demonstrates conformity or non-conformity with the GSTC-Recognized Standard and other certification requirements

9.6 Audit personnel may undertake consultation with stakeholders within or external to the client to clarify aspects of the client’s activity and performance.
  9.6.1 Audit personnel should undertake consultation where there is significant doubt about the sufficiency, quality, or veracity of information supplied by a client.
  9.6.2 The client shall be informed in writing about any stakeholder consultation undertaken.

  9.7.3 Explain to the client that this exchange of information does not predetermine the outcome of the certification decision.

9.8 Audit personnel shall prepare a written report of audit which:
  9.8.1 Sets out the process of the audit, including dates, documents scrutinised and interviews held
  9.8.2 Identifies areas of non-conformity with the standard
  9.8.3 May include comments and recommendations relevant to the decision on whether to grant certification
  9.8.4 Provides sufficient detail to enable a certification decision to be taken
  9.8.5 Is made available to the client, in full or in summary form.

9.9 The CP shall invite the client to correct any non-conformity identified within a specified time period and inform the CP when this rectification has been completed.
  9.9.1 The CP shall then implement a suitable re-evaluation process to verify conformity in these areas.

9.10 The CP shall assign one or more individuals to review all information and results from the evaluation and make a decision on whether or not to grant the certification.
  9.10.1 This decision shall be documented.
  9.10.2 Individuals involved in making this decision shall not include those involved in undertaking the audit.

9.11 The CP shall communicate to the client the results of the decision.
10 Renewal, Monitoring and Termination of Certification

10.1 The certification’s validity shall be not greater than three years from the date on which it was granted as shown on the certification document.
   10.1.1 Should the certification validity be greater than two years, the CP shall undertake at least one on-site visit to monitor the performance of the client during this period.

10.2 The CP should notify the client of the need for renewal of certification in sufficient time for a re-certification process to be carried out prior to the end of the current validity period.

10.3 Certification renewal shall follow the requirements for certification set out in this manual.

10.4 If certification has not been renewed by the expiry date, the CP shall terminate the certification.
   10.4.1 The CP shall inform the client that it is no longer certified and require that it removes all references to its previous certification.
   10.4.2 The CP shall monitor the client’s conformity with instructions in 10.4.1 for a period of twelve months or longer.
   10.4.3 The CP shall adjust its records and make publicly available information to reflect this termination.

   10.5.1 Monitoring shall include a requirement that the client undertakes an annual self-assessment and prepares a report and statement of compliance.

10.6 Should the CP have any concerns about the client’s conformity with the standard, as may arise from monitoring, notified changes, complaints (see section 11) or other information received, it should investigate the situation and if necessary instigate a re-certification process.

10.7 The CP shall have the right to suspend or terminate the certification upon finding any non-conformity. The CP shall inform the client of the reasons for suspension or termination and take action as specified in 10.4.

11 Appeals and Complaints

11.1 The CP shall record all appeals and actions taken to resolve them.

11.2 The CP shall have a documented appeals procedure for receiving, evaluating and making decisions about appeals made by clients against the certification decision. This procedure shall include:

11.4.3 Investigating the complaint in a timely manner
11.4.4 Drawing the complaint to the attention of any client involved
11.4.5 Gathering any necessary information
11.4.6 Making a decision on the complaint, which should be approved by an individual(s) not involved with certification activities related to the complaint
11.4.7 Informing the complainant and client of the outcome of the complaint
11.4.8 Taking all necessary action to resolve issues arising.

12 Management System

12.1 The CP shall have a management system that is described in a manual or a set of linked documentation, which:

12.1.1 Is appropriate to the size and complexity of the organization.\(^8\)

For small organizations, a complex system is not required, but the seven basic areas of ISO/IEC 17065\(^9\) should each have policies and procedures.

12.1.2 May be in any form of media.

12.1.3 Should include the CPs objectives and the policies and procedures for managing and operating it.

The policies and procedures should not impose an excessive burden on the certification program, but must ensure that records of all actions taken with respect to clients are documented and that these documents are handled according to established policies and procedures, as well as the records of training, decisions, appeals, etc.

12.2 Shall be accessible to relevant personnel and be understood by them.

12.3 The CP shall have procedures for the control of documents. These shall cover the adequacy, updating, changing, identity, legibility, use, distribution, removal and disposal of documents.

It is essential, even for the smallest organization, that all documents are properly managed.

12.4 The CP shall have procedures for the control of records. These should cover the identification, storage, protection, retrieval, retention and disposal of records.

Records can be digital or on paper.

---

\(^8\) Guidance on management system requirements for very small organizations is shown in italics. For further guidance, see ISO/IEC 17065.

\(^9\) According to ISO/IEC 17065, section 8, a certification body must: EITHER have a management system that addresses: a) general management system documentation (e.g., manual, policies, definition of responsibilities (8.2); b) control of documents (8.3); c) control of records (8.4); d) management review (8.5); e) internal audit (8.6); f) corrective actions (8.7); and g) preventive actions (8.8) OR have established and maintain a management system, in accordance with the requirements of ISO 9001.
12.5 The CP shall conduct a regular internal audit of its procedures to verify that the management system is effectively implemented.

12.5.1 Internal auditors shall not audit their own work.

12.5.2 Results of internal audits shall be made known to personnel with the responsibility for the areas that have been audited.

For very small organizations, this can be conducted as a group effort of all personnel. ISO 19011 provides guidelines for conducting internal audits.

12.6 The CP shall review the continuing suitability of its management system at least once every 12 months. The review shall be based on information from a variety of sources, including internal audit, inputs from personnel, feedback from clients, complaints and appeals.

For very small organizations, this can be conducted as a group effort of all personnel.

12.7 The CP shall take action to address actual and potential weaknesses in its operations, including non-conformities with the requirements of this section. The actions taken and the results achieved shall be recorded.

12.8 The CP should gather and record evidence on the impact that the presence of the certification scheme has had on its clients and their sustainability policies and actions.

13 Languages

13.1 A CP may only certify using languages for which there is a GSTC-Recognized standard.

13.1.1 The auditor must be proficient in that language.

13.2 In the event an enterprise or destination being certified has a business language for which there is a GSTC-Recognized standard, however a sizable proportion of the staff of the enterprise/destination being audited speak mainly another (local) language, the auditor may undertake the Audit accompanied by a capable translator.

13.2.1 In this event it is expected that the vast majority of documents are in the language of the GSTC-Recognized standard, and only spoken word translation is required. The enterprise/destination may use local language documents for training/awareness/management purposes with its staff and stakeholders, these may be translated to the language of the GSTC-Recognized standard by the enterprise/destination for the auditor’s review.

13.3 In the event an auditor does not speak the language of the enterprise/destination an audit may be completed only with certified translation of documents and using a qualified translator during the audit.
SECTION C: PROCESS FOR ASSESSING APPLICATIONS FOR GSTC-APPROVED

14.7.3 How competence of the personnel is managed and monitored
14.8 CV or a description of competence/qualification, education and experience of the personnel responsible for the technical management of the CP. This documentation can be single specific documents, or the information can be in different documents and records. In the latter case a simple cover document is required, describing the relationship among the other documents submitted.

**Properly Made GSTC-Approved Application**

14.9 A GSTC-Approved Application will be considered properly made when a completed GSTC-Approved Application, with attached required documents and the appropriate fee has been received by the GSTC. The Panel will determine whether or not a witnessed audit is required. For that reason, the costs of conducting a witnessed audit are NOT included in the published price of the GSTC-Approved application, and the applicant will be liable to cover the additional expenses of the GSTC auditor’s travel expenses plus professional fees if the Panel requires the audit.

**15 GSTC-Approved Process**

**Process for Evaluation**

15.1 This section describes how a Certification Program (CP) will be evaluated to determine whether it meets the GSTC-Approved Requirements to achieve GSTC-Approved status.

**Fundamental Eligibility**

15.2 To be GSTC-Approved, a Certification Program must own or have the right to use, a GSTC-Recognized standard\(^\text{10}\), must apply all the GSTC-equivalent criteria as mandatory in its certification and must meet the GSTC-Approved Requirements (Section B of this Manual).

**Omission of Requirements**

15.3 GSTC-Approved Requirements may be omitted without prejudice to GSTC-Approved status only where the Requirement is not applicable, given the scope of the certification program.

**Reliance on Legislation**

15.4 In some situations, where a CP is used in only one country or a smaller region (i.e. one legal jurisdiction), the applicant may choose to demonstrate that a GSTC-Approved Requirement is fully covered by legislation. In such a case:

-   a) the specific law(s) must be identified;
-   b) evidence must be provided that the relevant law(s) are enforced; and
-   c) the CP’s manual must require tourism enterprises to demonstrate compliance with applicable laws.

\(^{10}\) Equivalent standards might have differences in presentation and even in substance, e.g. in explanatory notes, guidance on how to fulfil the requirements of the standard, preferences for alternatives and varieties. Equivalency for purposes of GSTC-Recognized status includes harmonized, unified, identical, unilaterally-aligned, and comparable standards. (ISO/IEC Guide 2:2004 6.1, 6.2, 6.3, 6.8, and 6.9)
15.5 Acceptable evidence may include:
15.5.1 a requirement for a legally-binding sworn statement by the organization to be certified with respect to compliance with specific, named laws and regulations;
15.5.2 text from the CP’s manual or standard indicating that compliance with specific, named laws and regulations will be verified during the assessment.

15.6 In this case the GSTC-Approved status will only apply for the standard in that area of legal jurisdiction.

**GSTC-Approved Application**

15.7 CPs wishing to have their certification program GSTC-Approved shall download, or otherwise obtain copies of, the GSTC-Approved Manual v2.2 and associated GSTC-Approved Application documents which provide details of the process.

15.8 The CP shall complete all sections of the form “GSTC-Approved Application”.

15.9 The CP shall indicate the degree of correspondence between its own program and the GSTC-Approved Requirements, through completing a matrix provided in the GSTC-Approved Application. This involves mapping the program’s policies, practices and procedures against each GSTC-Approved Requirement, including a summary of compliance and reference to specific clauses in attached documents.

15.10 The CP:
15.10.1 May be required to justify their belief that any or all of the aspects of its program correspond to all GSTC-Approved Requirements.
15.10.2 Shall justify any variations between their program and the relevant GSTC-Approved Requirement.

15.11 Where a CP believes that there is justification for non-inclusion of a GSTC-Approved Requirement, it may indicate this. In all such cases it shall provide a written, evidence-based justification for this non-inclusion.
15.11.1 Evidence shall demonstrate that the element is not an issue for the sustainability of tourism in any of the countries and types of tourism enterprise certified by the CP.
15.11.2 Justification shall not be based on a difference in the meaning and coverage of sustainable tourism between the CP and the GSTC.

15.12 In the form “GSTC-Approved Application”, the certification program shall undertake to:
15.12.1 Complete the sections of the form “GSTC-Approved Application” relating to the ownership and operations requirements for the scheme.
15.12.2 Give the GSTC all updated versions of their GSTC-Recognized standard within 10 days of it being updated or in any way changed.
15.12.3 Give the GSTC all updated versions of any documentation relied on for the GSTC-Approved status within 10 days of it being updated or in any way changed.
15.12.4 Abide by GSTC’s requirements for GSTC-Approved status.
15.12.5 Follow the GSTC-Approved Manual processes in the event of a complaint or an appeal.
15.12.6 Inform the GSTC of any substantial changes to the ownership and/or management of the CP.
15.13 The GSTC will not reveal the names of certification programs that have applied for GSTC-Approved, but have not completed the process, have been GSTC-Approved (Conditional) or which have not achieved GSTC-Approved status. The results of the evaluation of the CP are confidential, with the results available only to the GSTC Secretariat and Accreditation Panel. Only those CP’s that are GSTC-Approved will be publicly identified.

GSTC Assessment of Applications

15.14 The CP must pay the relevant application fee before a GSTC-Approved Application will be assessed.

15.15 The completed GSTC-Approved Application form together with all the documentation requested shall be reviewed for completeness by GSTC technical staff, who may request further information and documentation.

15.16 Once satisfied that the application is complete, GSTC will appoint a reviewer to undertake the assessment. The reviewer may be a GSTC staff member permanently appointed to review all CP’s, except in cases of conflicts of interest or the appearance thereof.

15.17 The appointed reviewer(s) shall undertake an assessment of the equivalency of the CP against the GSTC-Approved Requirements. The reviewer(s) shall:

15.17.1 Draw the attention of the CP to any GSTC-Approved Requirement where the program appears not to address the requirement, and ask for further clarification or evidence if required.

15.17.2 Write an evaluation report based on the assessment of the compliance of the program to the GSTC-Approved Requirements.

15.17.3 Submit the report to the CP owner for comment, with a request to either correct any areas where compliance has not been established (prior to further consideration); or seek agreement to addressing potential conditions to correct any areas where compliance has not been established.

15.17.4 Update the report on receipt of the requested information from the CP.

15.18 The reviewer(s) shall make a recommendation on whether or not GSTC-Approved status should be granted in a final evaluation report.

15.18.1 A positive recommendation shall be made if the reviewer(s) involved believes that the CP addresses all GSTC-Approved Requirements.

15.18.2 A negative recommendation shall be accompanied by a summary of which areas are felt not to be compliant with the GSTC-Approved Requirements, and of the views of the certification program on compliance of those areas.

15.18.3 A recommendation of the requirement for a witnessed audit shall be made if the reviewer(s) believes that further evidence is required prior to reaching a decision.

15.19 The reviewer shall forward to the Chair of the GSTC Accreditation Panel a copy of the final evaluation report, including the recommendation.

15.20 When requested by the Accreditation Panel, GSTC shall arrange and undertake an audit of a certification audit chosen randomly from those scheduled in the relevant time period. The auditor may or may not be the same person as the desktop reviewer of the application.

15.21 The CP will be required to meet to costs of the witnessed audit.
15.22 The appointed auditor shall prepare a report of the witnessed audit, covering the following areas: audit preparation; communication with client; gathering and use of evidence, including observation and document review; identification of non-conformities; knowledge and skills of auditor(s) and ability to apply in audit situation; overall assessment of application of CP procedures. A GSTC form will standardise and document the audit process. The appointed auditor will submit the report to the Chair of the Accreditation Panel.

**GSTC Accreditation Panel Decision**

15.23 The Chair of the GSTC Accreditation Panel shall appoint a sub-group of three Panel members.

15.24 The GSTC Accreditation Panel shall review the evaluation report, together with a report of a witnessed audit if requested, and make a decision on whether or not to grant GSTC-Approved status for the CP.

15.25 The Panel may decide to grant GSTC-Approved (Conditional) status if there are a limited number of GSTC-Approved Requirements which the Certification Panel considers can be rectified by the CP.

15.26 The Chair of the GSTC Accreditation Panel shall inform the certification program of the Panel’s decision on granting GSTC-Approved status:

15.26.1 If the decision is not to grant GSTC-Approved status, the GSTC Accreditation Panel shall specify what if any steps the certification program must take before GSTC-Approved can be granted.

15.26.2 Should the certification program subsequently submit further information or a revised GSTC-Approved Application, the process shall recommence.

15.27 If the decision is to grant GSTC-Approved with conditions to be met by a specified date, the certification program shall:

15.27.1 Commit to meet the conditions by the specified date.

15.27.2 Acknowledge that no publicity or claims may be made about the GSTC-Approved (Conditional) status.

15.27.3 Acknowledge that GSTC-Approved (Conditional) status will be withdrawn if the conditions have not been met by the specified date.

15.27.4 Agree to submit evidence to the GSTC that the conditions have been met prior to the specified date.

15.28 A fee may be applicable for re-lodgement and re-assessment of a CP which has received GSTC-Approved (Conditional) status.

15.29 If the decision is to grant GSTC-Approved status with or without conditions, the GTSC shall provide the certification program with a letter (or similar document) regarding claims that can be made, and the terms upon which they may be made.

**16 Expiry and Renewal Process**

**Expiry of GSTC-Approved Status**

16.1 GSTC-Approved status will apply to a certification program until the earlier of:

16.1.1 The certification program amends their policies, procedures or practices
16.1.2 The majority ownership of the certification program changes
16.1.3 The standard used by the GSTC-Approved program is no longer GSTC-Recognized
16.1.4 Two years from granting of initial GSTC-Approved status.

Renewal of GSTC-Approved Status

16.2 If the GSTC-Approved status of a CP has expired, the CP may apply for a renewal (preferably three months prior to the expiry).
16.2.1 If there have been changes to the ownership, management or any policies and procedures a new GSTC-Approved Application may be required to be completed; or
16.2.2 If there have not been changes to the ownership, management or any policies and procedures a GSTC-Approved (Renewal) Application may be completed.

Amendment of GSTC-Approved Requirements

16.3 If the GSTC-Approved Requirements have been amended by the GSTC, the GSTC Accreditation Panel will give due notice to GSTC-Approved CPs of any changes made to the GSTC-Approved Requirements and subsequent actions that they may be required to take upon expiry of their current GSTC-Approved status:
16.3.1 A new GSTC-Approved Application may be required to be completed; or
16.3.2 A GSTC-Approved (Renewal) Application may set out the revised or additional requirements in a short form matrix (including the full individual criteria and components).
16.3.3 If the GSTC-Approved Manual is changed during the period of a CP's GSTC-Approved status (i.e. up to two years), no action is required of the CP until renewal upon the expiry of the GSTC-Approved status.

Amendment of a GSTC-Recognized Standard

16.4 The GSTC-Approved status of a CP only applies whilst the standard is GSTC-Recognized.
16.5 Should a standard be no longer GSTC-Recognized the certification program has a twelve-month period in which to re-apply or renew the GSTC-Recognized status of the standard in accordance with the GSTC-Recognized Manual.

Ongoing Suitability of a Certification Program

16.6 Should the GSTC Accreditation Panel have reason to be concerned about the ongoing conformity of an already GSTC-Approved program with the GSTC-Approved Requirements, it may require the certification program to provide further information, and may, as an ultimate sanction, withdraw the GSTC-Approved status.

17 Appeals Procedure

Complaints

17.1 Any complaints made about matters relating to GSTC-Approved processes shall be submitted to the GSTC.
17.2 The GSTC shall forward complaints to the GSTC Accreditation Panel, who will discuss the complaint with the complainant and / or certification program and agree appropriate action.

17.3 The GSTC shall record all actions taken and communicate the outcome of the complaint to the complainant.

**Appeal by a Certification Program**

17.4 An appeal by a certification program against an GSTC-Approved decision may only be due to:
   17.4.1 Refusal by the GSTC to accept its application for GSTC-Approved status
   17.4.2 Refusal to proceed with a GSTC-Approved evaluation

17.28 The GSTC Executive Director shall appoint a staff member not directly involved with the appeal to act as secretary to the Appeals Panel.

17.29 The GSTC Executive Director shall forward all information related to the appeal to the Appeals Panel members.

17.30 All parties may be requested by the Appeals Panel to provide additional information, attend in person meetings (at each party’s cost) or participate in conference calls as required.

17.31 Reasonable efforts shall be made to ensure that all parties have an opportunity to put their case to the Appeals Panel – generally written form is preferred.

17.32 The Appeals Panel shall make its own operating rules and procedures as necessary,
The Appeals Panel shall bear in mind the grounds for appeal:
17.33.1 Should the grounds for appeal be that the GSTC has not followed procedures, the Appeals Panel shall limit its investigation to whether or not the procedure has been followed.
17.33.2 Where the procedure is unclear or is silent on a matter, the GSTC’s interpretation of a GSTC-Approved Requirement shall prevail unless it is felt by the Appeals Panel to be against standards and/or certification industry best practice, or against the principles of natural justice;
17.33.3 Should the grounds for appeal be that GSTC’s has incorrectly interpreted a requirement of its own procedure, GSTC’s Accreditation Panel shall be asked to provide an interpretation which shall be binding.

The Appeals Panel chair shall determine the most appropriate method to review the appeal. It may be conducted by conference call, email or by meeting.

Parties may be asked by the Appeals Panel chair to present oral arguments at an in-person review meeting. Use of lawyers for this purpose is not allowed; the parties involved shall represent themselves.

No timescales are defined but it is recommended that the appeal review is held within 60 days of the formation of the Appeals Panel, and the appeal decision be made within 30 days of the Appeals Panel’s review.

While a consensus approach to decision making is desirable, if this is not possible the appeal decision shall be made by simple majority vote. In the event of a tied vote, the Chair of the Appeals Panel shall have a casting vote.

The Appeals Panel will communicate their decision to all parties, which will be binding and no further appeal shall be permitted.

Where required the GSTC CEO will take follow-up action.

On completion of the appeal all records will be forwarded to the Appeals Panel secretary for retention.

Costs
17.41 The cost of hearing an appeal shall be determined by the GSTC.
17.42 The Appeals Panel shall determine the apportionment of the costs of the Appeal.
17.43 In apportioning costs, the Appeals Panel shall commence with the assumption that cost should be borne equally between the appellant and the GSTC.
17.44 Should the Appeals Panel consider that the appeal is frivolous and without merit, it may require the appellant to pay a proportion of up to 100% of the costs.
17.45 Should the Appeals Panel consider that the GSTC has acted in a way that does not display all due diligence, it may require the GSTC to pay a proportion up to 100% of the costs.
17.46 In the event that the appellant has been ordered to pay the costs, or part of them, the appellant will be under obligation to pay the amount due to the GSTC within ten days of the date of the decision.
18 Fees

GSTC-Approved Application

18.1 A CP will be required to pay a fee for the process of approving its certification program.
18.2 Fees must be paid upon application and before the GSTC-Approved Application is considered.
18.3 The fee is set out in the GSTC-Approved Application.
18.4 The Panel will determine whether or not a witnessed audit is required. For that reason, the costs of conducting a witnessed audit are NOT included in the published price of the GSTC-Approved application, and the applicant will be liable to cover the additional expenses of the GSTC auditor’s travel expenses plus professional fees if the Panel requires the audit.

Pre-Lodgement Advice

18.5 A CP (for an agreed fee) may request pre-lodgement support/advice by GSTC technical staff. Technical staff may provide comments on a standard, or comment on a draft GSTC-Approved Application.
18.6 Such advice is offered to support CPs achieving GSTC-Approved status, however the advice is offered as officer level advice and is not to be considered as GSTC Accreditation Panel policy nor a commitment or liability for positive consideration.
18.7 Provision of such advice by a GSTC staff/reviewer is not a conflict of interest for undertaking the subsequent assessment of a lodged GSTC-Approved Application.
