CREDIBILITY THROUGH CERTIFICATION

We expect our own hotels and hotel partners to implement credible, independent sustainability certifications to demonstrate social and environmental good practice. Our ambition is to increase the number of hotels with sustainability certifications to accommodate 10 million customers a year by 2020.

We encourage our hotels to aim for certification that meets the Global Sustainable Tourism Council (GSTC) standard. A mandatory clause in contracts with our accommodation suppliers outlines minimum expectations and requires them to work towards credible GSTC-recognised sustainability certification.
